

Name of the project: Saksham Pramaan - Programme Evaluation for National AIDS Control Programme (NACP)

Project details:

National AIDS Control Organisation (NACO) has initiated several interventions (such as the link ART centres, Community based screening, etc.) in order to meet its goals and the 95-95-95 objectives. Concurrent, mid-term programmatic evaluations are critical to identifying programme implementation gaps of these interventions and appraisal of options to address those gaps so that mid-path course corrections can be implemented. Saksham, in consultation with NACO, will identify areas for programme evaluation on an annual basis. From among the areas identified, the project shall design and conduct one major and two minor programmatic evaluations. TISS will design the study proposal, develop study protocols and invite agencies to undertake the study by inviting proposals. The programmatic evaluations will cover the whole of the country. The project's main objective is to design and conduct a concurrent and mid-term evaluation of select programmatic interventions under NACP.

We are inviting applications of eligible candidates to undertake a survey amongst PLHIVs in various parts of the country for a study titled "Understanding HIV-related Stigma and Discrimination, Coping Mechanisms and, Access to Services among PLHIV in India"

Name of the post: Field Investigators

Application Link: <https://forms.gle/1fQevsysSH5EH4j59>
