

School of Health Systems Studies, TISS - NHSRC & NHM

presents

POST GRADUATE DIPLOMA IN HEALTHCARE QUALITY MANAGEMENT (PGDHQM)

About TISS

Tata Institute of Social Sciences, with an 80-year history, evolved from a Graduate School of Social Work in 1936 to a Deemed University in 1964. Since its inception, TISS has been renowned for pioneering efforts in social work, publishing the first Journal of Social Work in South Asia and achieving a high accreditation score. TISS is now a leading institution in Social Sciences, emphasizing academic excellence, notable alumni, and contributions to sustainable development and social justice. The institute maintains international collaborations to stay updated on global developments in various fields of study.

VISION

The vision of the TISS has been to be an institution of excellence in higher education that continually responds to changing social realities through the development and application of knowledge...

MISSION

In pursuance of its vision and guiding principles, the Tata Institute of Social Sciences organises teaching programmes to facilitate the development of competent and committed professionals for practice.

ABOUT SCHOOL OF HEALTH SYSTEMS STUDIES

The School of Health Systems Studies (SHSS) is committed to enhancing global health through research, education, and dissemination. It equips students for roles in public health, hospital administration, and leadership positions. The school actively engages in national and international collaborative research, contributing to evidence-informed health policies and programs. Offering dynamic post-graduate programs and responding to government health sector needs, the school plays a vital role in developing innovative health strategies and advocating for public health equity. With a diverse range of degree and diploma programs, the school operates through four specialized centres:

- Centre for Health and Social Sciences
- Centre for Health Policy, Planning and Management
- Centre for Hospital Management
- Centre for Public Health
