Tata Institute of Social Sciences, Mumbai

Date of advertisement: 20.04.26

Advertisement no.: SHE-TISS/20.04.26

About the Project:

The School of Human Ecology, Tata Institute of Social Sciences, Mumbai, is recruiting for the following posts as part of a 3-year ICMR project on student mental health and well-being in schools and colleges.

- 1 Post - Research Scientist II (Non-medical)
- 2 Post - Research Scientist I (Non-medical)

Name of the Post: Project Research Scientist II (Non-medical)

Number of Posts: 01

Location: Mumbai/Thane/Navi Mumbai (Job responsibilities include travel to Thane)

Remuneration: ₹ 67,000 + 30% HRA per month

Duration: 10 months

Working days: 6 days a week

Job Profile:

- Liaising with stakeholders to obtain research permissions, coordinate ongoing collaborations, and schedule project-related meetings
- Conducting and overseeing data collection, including monitoring adherence to study protocols and timelines
- Data entry, data cleaning, data management, and handling of large and complex datasets
- Conducting and overseeing data analysis (quantitative and qualitative)
- Maintaining research documentation, records of methods, and project processes
- Writing research reports, progress updates, and manuscripts
- Assisting in development and refinement of well-being-related modules and other project deliverables

- Training research teams and supporting capacity-building workshops
- Organising meetings and maintaining minutes
- Any other task assigned by the supervisor/project leader.

Eligibility

First-class postgraduate degree in Psychology, including the integrated PG degree with three years of experience or Ph.D.

OR

Second-class postgraduate degree in Psychology, including the integrated PG degree, with a Ph.D. and three years of experience.

Preference will be given to candidates with the following experience:

- Experience in working with schools/colleges/adolescent mental health initiatives
- Experience with managing teams and/or leading research projects
- Good academic writing skills in English and research publications
- Competence in using quantitative and qualitative analysis tools – SPSS/STATA/R/Python, Atlas.ti, etc.
