MA EDUCATION (Elementary)

(Two Years [Blended Mode],
Study Education while you work)

Why choose us?

Study a Masters degree in Education while you work!

- MAEE is a unique programme for working professionals. Fresh graduates are also encouraged to apply.
- It enables you to work while studying in a full time programme.
- Its mode of delivery is blended; a blend of contact face to face classes and distance mode/internet supported pedagogy.
- Renewed curriculum as per NEP, 2020 responding to contemporary needs.
- This programme enables you to develop a critical understanding of the core and foundational areas of education, including theory and research.
- The programme is designed to include thematic, issue-based courses that are of current significance in the Indian context.
- You will spend two weeks every semester with classes on campus and engage with classes online in the evening after contact period.

Faculty Profile

The faculty who will be teaching are all robust and diverse. People whose books, articles you may have read or those who have been members of various national expert bodies/committees and seasoned practitioners from schools and NGO's working in the field of education will be teaching you.

Career Pathways after MA Education (Elementary)

Graduates of the MA Education (Elementary) programme enter the field with strengthened practice, sharper research skills, and expanded professional opportunities. Many participants are already working in education and return to their organisations with enhanced expertise and leadership potential, while others explore new roles and sectors.

Career options include:

- **Curriculum & Content Development** – Designers, editors, learning-material developers
- **Educational Leadership & Administration** – Academic coordinators, programme managers, school leaders, educational counsellors
- **Research & Policy** – Education researchers, analysts, think-tank associates

Our alumni work across **government bodies, NGOs, civil society organisations, CSR initiatives, policy institutes, and international education agencies**. Many also pursue **doctoral studies in India and abroad**, going on to become **faculty members and academic leaders**.

The programme prepares graduates for **impactful careers across the educational ecosystem**.

Eligibility

- **Essential qualifications:** Must have graduated.
- **Desirable qualification:** Working in the field of education.
